

TargetAI Counselor Platform

By StemPro Academy

Your Complete College Counseling Command Center

The AI Age of College Counseling

The landscape of college counseling is transforming. In the AI age, practices must evolve to remain competitive and effective. The choice is clear: work alongside AI to enhance your capabilities and scale your impact, or risk being replaced by those who do.

TargetAI positions you at the forefront of this evolution—empowering you to deliver personalized, data-driven guidance at unprecedented scale while maintaining the human insight that defines exceptional counseling.

Platform Overview

TargetAI is a comprehensive college counseling platform designed for professional counselors. Manage your entire caseload, conduct meetings, track student progress, analyze college strategies, and leverage AI-powered insights—all from one intelligent command center.

Core Features

1. Students Management

1.1 Student Dashboard

Your central hub for managing all students with real-time insights.

Key Capabilities: - View all students with key metrics (total students, upcoming meetings, high schools, colleges) - Search and filter by name, email, grade, or school - Quick action buttons for each student (chat, email, profile, delete) - Student type badges (Regular vs Prospect) - Export student data for external analysis

StemPro Academy

www.stempro.org

Welcome back, Chris! Your student dashboard

Here's what's happening with your students

Metrics Cards:

- Total Students: 16
- Upcoming Meetings: 3 (Next 7 days)
- High Schools: 16
- Colleges: 107
- Compare Students: 16

Search and Filter:

Search by name, email, or school... All Grades Sort by Name

Showing 16 students

Student	Type	Grade	Grad Year	Documents	Last Active	Actions
Aaliyah Jackson aaliyah.j@stempro.org	Regular	12th	2026	0	Just now	[Icons]
Aisha Rahman aisha.r@stempro.org	Regular	12th	2027	0	Just now	[Icons]
Diego Hernandez diego.h@stempro.org	Regular	12th	2027	0	Just now	[Icons]

Screenshot: highschool.png - High schools list view with locations and student counts

3.2 AI Chat for School Research

Get instant insights about any high school with AI assistance.

Key Capabilities: - Context-aware AI focused on specific schools - Quick action prompts (School Profile, Course Offerings, Activities, College Outcomes, Maximize Prep) - Research high school data automatically - Compare schools and analyze patterns

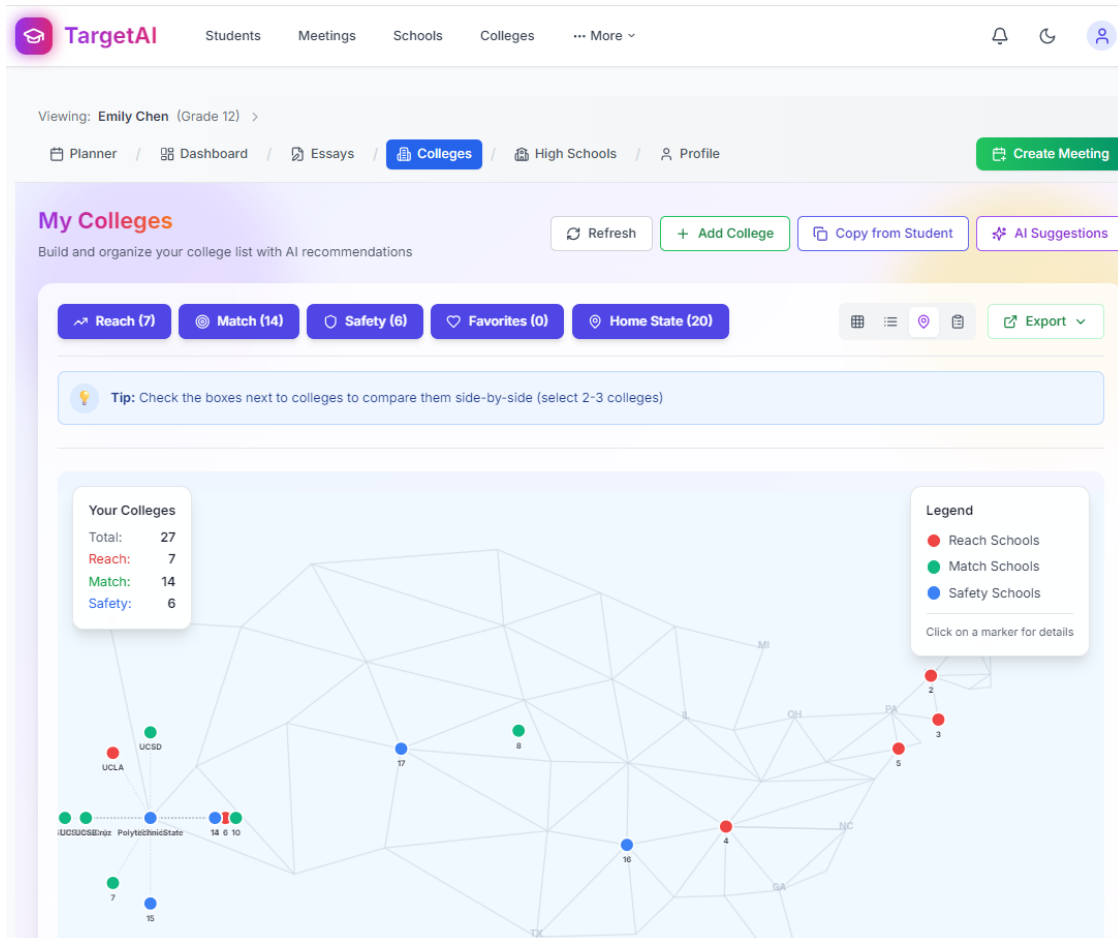

Screenshot: high_school_2.png - High schools page with AI Assistant focused on school context

4. Colleges Intelligence

4.1 Counselor Colleges View (Aggregated)

Understand college trends across your entire caseload.

Key Capabilities: - View all colleges across assigned students - Toggle between “My Students” and “All Students” scopes - List view and scatter plot visualization - Competitiveness badges (High, Medium, Regular) based on acceptance rates - High: < 20% acceptance rate - Medium: 20-60% acceptance rate - Regular: > 60% acceptance rate - Student count per college - Expandable view to see which students are interested - Student tier classifications (Reach, Target, Safety)

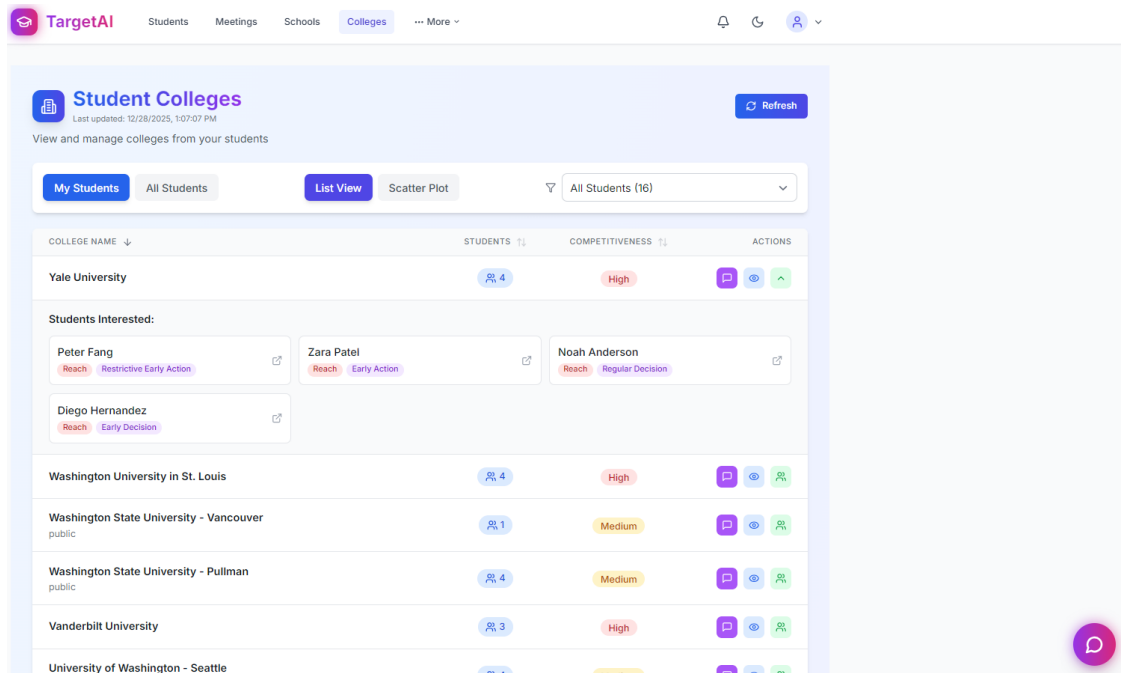

Screenshot: colleges.png - Aggregated colleges list with competitiveness indicators and student breakdown

4.2 Student Colleges View (Individual)

Build and visualize strategic college lists for each student.

Key Capabilities: - College list organized by tier (Reach, Match, Safety) - Total count per tier category - Platform filters (Common App, UC, Coalition, Texas) - Tier filters with color coding - Status filters (Not Started, In Progress, Completed) - Add colleges, copy from another student, AI suggestions - Multiple view options (Grid, List, Map, Timeline) - Export college list

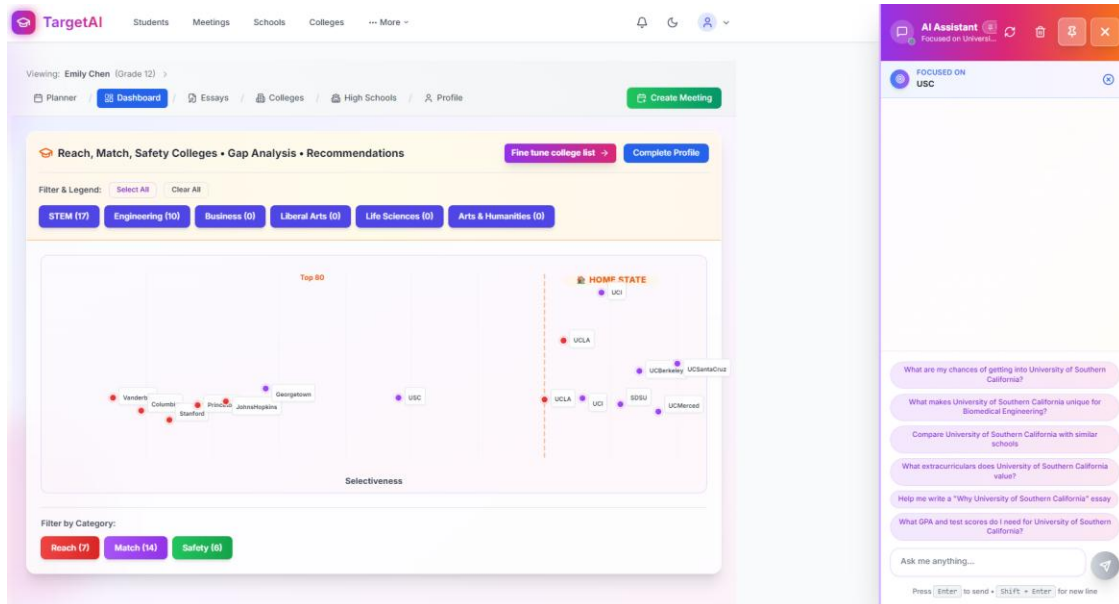

Screenshot: college.png - Student's college list with scatter plot visualization and tier breakdown

4.3 Gap Analysis & Recommendations (Student Dashboard)

Visualize college strategy with AI-powered gap analysis.

Key Capabilities: - Scatter plot showing Reach, Match, and Safety colleges - Selectiveness vs. fit visualization - Home state colleges highlighted - Filter by major categories (STEM, Engineering, Business, Liberal Arts, Life Sciences, Arts & Humanities) - Tier distribution (Reach, Match, Safety counts) - AI chat with college-focused quick actions - "Fine tune college list" and "Complete Profile" CTAs

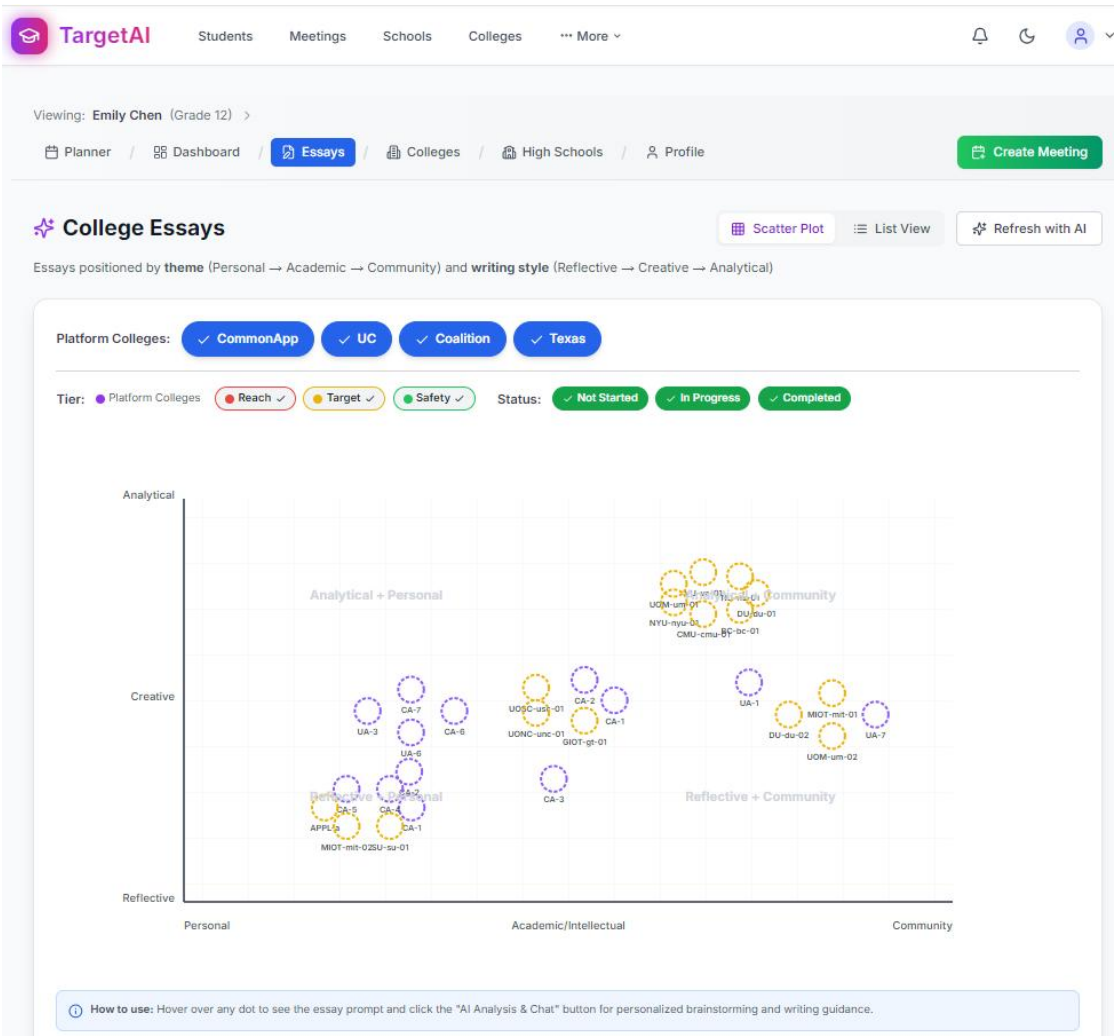

Screenshot: dahsboard2.png - Student dashboard showing gap analysis visualization with AI suggestions

5. Essays & Applications

5.1 College Essays Visualization

Strategically plan essays by theme and writing style.

Key Capabilities: - Essay scatter plot by theme (Personal, Academic, Community) and style (Reflective, Creative, Analytical) - Platform filters (Common App, UC, Coalition, Texas) - Tier filters (Reach, Target, Safety) - Status tracking (Not Started, In Progress, Completed) - Toggle between scatter plot and list view - Refresh with AI for optimization suggestions - Visual clustering of essays by positioning strategy

Screenshot: essay.png - Essay scatter plot showing positioning by theme and writing style

6. Admin Controls

6.1 Admin Dashboard

Platform-wide management for administrators.

Key Capabilities: - View all meetings, students, documents, and admins - Search students across all counselors - Filter by status (current, graduated) - Filter by grade level - Filter by counselor assignment - Student list with counselor assignments visible - Quick actions (Reassign counselor, Graduate student) - Status indicators (Current, Graduated)

The screenshot shows the TargetAI Admin Dashboard. At the top, there's a navigation bar with 'TargetAI' and links for 'Students', 'Meetings', 'Schools', 'Colleges', and 'More'. Below this, the 'Admin Dashboard' section is titled 'Manage platform-wide settings and data'. It features tabs for 'All Meetings', 'All Students' (selected), 'All Documents', and 'Admins'. A search bar is present with filters for 'current', 'All Grades', and 'All Counselors', along with a 'Refresh' button. The main content area displays a table of 'All Students (20)'. The table has columns for NAME, EMAIL, GRADE, SCHOOL, COUNSELOR, STATUS, and ACTIONS. The first six rows are visible, showing students like Aaliyah Jackson, Aisha Rahman, Diego Hernandez, Emily Chen, Ethan Kim, and Isabella Martinez, all assigned to Chris Gold as their counselor. The last row shows Jayden Williams assigned to Elise Yang.

7. AI Assistant (Platform-Wide)

The AI Assistant is integrated throughout TargetAI, providing context-aware support on every page:

Key Features: - **Student Context:** Profile summaries, strengths analysis, college suggestions, next steps, timeline - **School Context:** School profiles, course offerings, activities, college outcomes, prep strategies - **College Context:** Admissions insights, competitiveness analysis, fit assessment - **Meeting Context:** Report generation, notes summarization, action items - **Always Available:** Purple chat button accessible from any page - **Focus Mode:** Automatically loads relevant context based on current page

The AI Assistant learns from your complete student portfolio to provide personalized, actionable recommendations.

Getting Started

For New Counselors:

1. **Add Your First Student** - Use the “Add Student” button or send an invitation
 2. **Schedule Initial Meeting** - Create a meeting and use real-time recording
 3. **Generate Meeting Report** - Let AI create professional summaries in minutes
 4. **Build Student Profile** - Complete profile sections with AI-extracted data
 5. **Develop College Strategy** - Use gap analysis and AI recommendations
-

Quick Win Features

Save hours every week with these time-saving capabilities:

- **AI Chat Assistant** - Get instant student insights with one-click portfolio analysis
 - **AI Meeting Reports** - Save 30+ minutes per meeting with auto-generated summaries
 - **Real-Time Recording** - Capture audio and video during meetings with automatic transcription
 - **College Gap Analysis** - Visualize reach/match/safety balance instantly
 - **Essay Positioning Map** - Strategically plan essay themes across all applications
 - **Student Comparison** - Benchmark multiple students side-by-side
 - **Competitiveness Intelligence** - See college selectivity across your entire caseload
